

Sales Operational Bundle for SX.e

Improve customer engagement with daily actionable insights

MITs Distributor Analytics' Sales Operational Bundle gives your sales team the daily insights they need to better engage customers and manage their territory. This bundle makes it easy for your sales reps to see if they are on target for meeting bookings, invoicing, and gross profit goals, and to identify and prioritize the activities that will help them achieve their targets.

The Sales Rep Daily Bundle includes three new operational scorecards (Bill To Customer, Ship To Customer, and Sales Rep) and three new supporting modules (Open Quotes, Open Orders, Bookings).*

***Bundle Requirements:** You must be on Discover 10.2.0 (or above) and have MITs standard Sales Analysis Module installed in order to use the Sales Operational Bundle. While the standard Accounts Receivable Analysis Module is not required, if you do not have it you will not see the AR sections on the three scorecards that come with this Bundle.

KEY QUESTIONS ANSWERED

- Are my bookings and invoicing on track for the month, and how does this compare to my 12-month invoicing average?
- Which customers have the highest open quote value—and associated gross profit percentage?
- How are my big accounts doing, and which accounts do I need to be concerned about?
- How should I prioritize my calls and activities for today?
